## VOLUME 27 TITLE INDEX

*Capital Budgeting for Volume Flexible Equipment.* George F. Tannous, 27(2), 157-184.

*Comparing Decision Rules that Incorporate Customer Diversion in Perishable Asset Revenue Management Situations.* Peter P. Belobaba, & Lawrence R. Weatherford, 27(2), 343-363.

*Comprehensive Model for Managing Credit Risk on Home Mortgage Portfolios, A.* L. Douglas Smith, Susan M. Sanchez, & Edward C. Lawrence, 27(2), 291-317.

*Conceptualizing Structurable Tasks in the Development of Knowledge-Based Systems.* Michel Benaroch, & Mohan Tanniru, 27(3), 415-449.

*Critical Success Factors for Strategic Alliances in the Information Technology Industry: An Empirical Study.* Arun Rai, Santanu Borah, & Arkalgud Ramaprasad, 27(1), 141-155.

*Determining Optimal Advertising Strategies: A Markov Decision Model Approach.* Vijay S. Desai, & Amit Gupta, 27(3), 569-588.

*Development and Validation of TQM Implementation Constructs.* Sanjay L. Ahire, Damodar Y. Golhar, & Matthew A. Waller, 27(1), 23-56.

*Effects of Erroneous Estimation of Activity Durations on Scheduling and Dispatching a Single Project.* Kum-Khiong Yang, 27(2), 255-290.

*Empirical Test of the Strategic-Grid Model of Information Systems Planning, An.* Semi Tukana, & Ron Weber, 27(4), 735-765.

*Examination of the Effect of Continuous Quality Improvements on Optimal Pricing for Durable Goods, An.* Ram Narasimhan, David Mendez, & Soumen Ghosh, 27(3), 389-413.

*Examining the Impact of Speed of Quality Improvement on Quality-Related Costs.* S. Thomas Foster, Jr., & Everett E. Adam, Jr., 27(4), 623-646.

*Heuristic Algorithm for the Capacitated Multiple Supplier Inventory Grouping Problem, A.* Siddhartha S. Syam, & Shetty Bala, 27(4), 711-733.

*Identification of the Critical Factors of TQM.* Simon A. Black, & Leslie J. Porter, 27(1), 1-21.

*Involving Information System Users in Defining System Requirements: The Influence of Procedural Justice Perceptions on User Attitudes and Performance.* James E. Hunton, 27(4), 647-671.

*Lot Splitting in Stochastic Flow Shop and Job Shop Environments.* Timothy L. Smunt, Arnold H. Buss, & Dean H. Kropp, 27(2), 215-238.

*Master Production Rescheduling Policy in Capacity-Constrained Just-In-Time Make-To-Stock Environments.* Gary M. Kern, & Jerry C. Wei, 27(2), 365-387.

*Measuring Productivity of Software Projects: A Data Envelopment Analysis Approach.* M. Adam Mahmood, Karen J. Pettingell, & Shaskevich, Alexander I., 27(1), 57-80.

*Model of the Antecedents of Perceived Ease of Use: Development and Test, A.* Viswanath Venkatesh, & Fred D. Davis, 27(3), 451-481.

*Multiple Objective Embedded Network Model for Human Resource Planning and an Implementation of the Tchebycheff Method, A.* Dennis Drinka, Minghe Sun, & Brian Murray, 27(2), 319-341.

*Newsboy Problem with Multiple Discounts Offered by Suppliers and Retailers, The.* Moutaz Khouja, 27(3), 589-599.

*Note on 'An Approximate Solution to Deterministic Kanban Systems', A.* Gautham Vemuganti, Rajan Batta, & Yixin Zhu, 27(4), 817-826.

*Note on 'An Approximate Solution to Deterministic Kanban Systems': A Commentary and Further Insights, A.* Farhad Moeeni, & Yih-Long Chang, 27(4), 827-832.

*Nucleolus Strikes Back, The.* Michael Carter, & Paul Walker, 27(1), 123-136.

*Nucleolus Strikes Out Again: A Comment on "The Nucleolus Strikes Back", The.* Thomas L. Barton, 27(1), 137-139.

*On the Rank-based Selection Strategy for the Group Interview Problem.* Young H. Chun, 27(4), 801-815.

*Organizational Computing as a Facilitator of Operational and Managerial Decision Making: An Exploratory Study of Managers' Perceptions.* James T. C. Teng, & Kenneth J. Calhoun, 27(4), 673-710.

*Ramifications of Monitoring Service Quality Through Passively Solicited Customer Feedback.* Scott E. Sampson, 27(4), 601-622.

*Rationing Capacity Between Two Product Classes.* Nagraj Balakrishnan, 'Sri' V. Sridharan, & J. Wayne Patterson, 27(2), 185-214.

*Stochastic Goal Program for Employee Scheduling, A.* Fred F. Easton, & Donald F. Rossin, 27(3), 541-568.

*Strategic, Area-wide Contingency Planning Model for Oil Spill Cleanup Operations with Application Demonstrated to the Galveston Bay Area, A.* W. E. Wilhelm, & Anand V. Srinivasa, 27(4), 767-799.

*Tandem Configuration Automated Guided Vehicle Systems: A Comparative Study.* Edward A. Ross, Farzad Mahmoodi, & Charles T. Mosier, 27(1), 81-102.

*Theoretical Model of Manufacturing Lead Times and Their Relationship to a Manufacturing Goal Hierarchy, A.* John G. Wacker, 27(3), 483-517.

*Understanding the Participation of Critical Task Specialists in Strategic Decision Making.* Donde P. Ashmos, & Reuben R. McDaniel Jr., 27(1), 103-121.

*Virtual Cellular Manufacturing Approach to Batch Production, A.* Vijay R. Kannan, & Soumen Ghosh, 27(3), 519-539.

*Why a Decision Maker May Prefer a Seemingly Unfair Gamble.* Arun J. Prakash, Chun-Hao Chang, Shahid Hamid, & Michael W. Smyser, 27(2), 239-253.

## VOLUME 27 SUBJECT INDEX

Airline Seat Inventory Control, 343-363
Capital Budgeting, 157-184, 239-253
Case Study, 623-646
Cellular Manufacturing, 519-539
Computer Applications, 123-136
Computer Self-Efficacy, 451-481
Contingency Planning, 767-799
Corporate Finance, 157-184
Cost Allocation, 123-136
Critical Factors, 141-155
Customer Feedback, 601-622
Data Envelopment Analysis, 57-80
Decision Analysis, 239-253
Decision Support Systems, 291-317, 673-710, 767-799
Decision Theory, 185-214
Demand Management, 185-214
Differential Pricing, 343-363
Diversion, 343-363
Dynamic Optimization, 389-413
Econometric Models, 601-622
Economics, 157-184
Empirical Research, 623-646
End-Use Computing, 673-710
Facility Layout, 519-539
Financial Models, 291-371
Forecasting, 291-317
Game Theory, 123-136
Goal Programming, 541-568
Group Technology, 519-539
Heuristic Procedure, 801-815
Heuristics, 767-799, 817-826, 827-832
Information Management, 735-765
Information Systems Implementation, 57-80
Information Technology Industry, 141-155
Inventory Management, 589-599
Job Shop Scheduling, 215-238, 519-539
Just-In-Time Manufacturing, 827-832
Just-In-Time Systems, 365-387
Kanban Systems, 827-832
Knowledge-Based Systems, 415-449
Knowledge Modeling, 415-449
Labor and Staff Planning, 541-568
Learning, 623-646
Logit Modeling, 291-317
Lot Splitting, 215-238
Machine Scheduling and Sequencing, 215-238
Management and Strategy, 157-184
Management Information Systems, 673-710, 735-765
Managerial Accounting, 123-136
Managerial Problem Solving Processes, 319-341, 647-671
Manufacturing Goals, 483-517
Manufacturing Lead Time, 483-517
Manufacturing Strategy, 483-517
Markov Processes/Chains, 291-317
Marketing, 569-588
Materials Handling Systems, 81-102
Mathematics, 569-588
Mathematical Modeling, 623-646
Mathematical Programming, 319-341, 711-733
Network Theory, 319-341
Nonparametric Procedure, 801-815
Oil Spill Cleanup, 767-799
Optimal Stopping Rule, 801-815
Organizational Behavior, 647-671
Organizational Structure, 103-121
Participation, 103-121
Perceived Ease of Use, 451-481
Planning/Strategy, 735-765
Plant Design, 817-826
Policy Determination, 767-799
Price, Quality, and Sales Response, 389-413
Project Management, 255-290
Process Design, 215-238
Production and Inventory Management, 827-832
Production/Operations Management, 81-102, 157-184, 589-599, 711-733, 817-826
Production Planning, 365-387
Public Enterprise, 735-765
Quality, 623-646
Quality Management, 23-56
Quantitative Techniques/Methodology, 319-341, 569-588, 711-733
Ratio Scaling, 1-21
Research Design, 1-21
Risk Analysis, 291-317
Risk and Uncertainty, 239-253
Scale Development, 23-56
Sell-up, Trade-up and Yield Management, 343-363
Sequential Decision Process, 801-815
Service Operations, 541-568
Service Quality, 601-622
